SMART SCHOOL MANAGEMENT SYSTEM

Complete School
IT Solutions

www.gbcchennai.com

GBC Smart School System is a simple administration software, easy to use school administration system that helps school to automate various critical operations like Admission, Billing, Attendance, Time Table, Payroll, Inventory, Library Management, Accounts Management, CCE Profile Management, ID Card, TC etc.

With the advantage of internet and mobile communication, schools need to ensure that real time information is shared with all parents / teachers in the most effective manner. This is feasible with optimized process management using school management system.
